

Active Learning Centers

Response to COVID-19 Notification

Child's Name: _____

I understand that as a response to and due to the COVID-19 pandemic and the preventative social, medical and business practices put in place state and country-wide, there are new approaches to the everyday care of my child that Active Learning Centers must follow going forward.

I also understand that outlined policies or procedures that are put into place in response to COVID-19 or new and heightened responses to existing policies that are outlined in detail in our handbook supplement will be strictly enforced for the safety and security of our staff and children.

These areas are subject to responsive changes to CDC and State Licensing guidance and include, but are not limited to the following:

- New external drop-off and pick up procedures and schedules
- Ongoing temperature checks (including parents) using the updated CDC guideline of 100.4°F
- Strict daily personal belonging management
- Mask policies for parents, staff and optional parent-provided mask policies for children
- The use of strict primary care groups with dedicated staff members in dedicated spaces
- Changes in classroom schedules to accommodate rotation and alternating group schedules
- Changes in location and room assignments of students
- Increased sanitization, disinfecting and handwashing expectations for students and staff
- Preferred payment options and an increase in contactless tuition payment preferences
- Strict enforcement of behavioral policies
- Strict enforcement of health and illness policies that will continue to be responsive to updated guidance from the CDC and Pennsylvania DHS.
